I AM...

A cinematographer/videographer/director/producer with a background in visual arts, who loves creating strong imagery to elevate interesting stories with dynamic characters. I have a strong eye for color & composition as well as capturing the emotional core of subjects. I also know how to get the job done, with proper communication, organization, attention to detail, and being a team player. Having worked in every phase of production, I possess the experience and know-how to bring film & video projects from concept to completion no matter the role.
